May 4, 1999

Dear Commissioner Henney, 1233 '99 MAY 17 P2:15

I am writing to voice my concerns about the additives of antibiotics, hormones and vitamins added to animal feed. As a Registered nurse I am concerned about these additives promoting the growth of resistive bacteria.

Thank you

Sincerely,

Jeanette K. Richardson RN, BSN, MEd

To: Commissioner Jane E. Henney  
Parklawn Building, Rm. 14-71

As a member of the Center for Science in the Public Interest (CSPI), I urge you to save human lives by banning the use of medically useful antibiotics in animal feed. Adding antibiotics to feed in order to promote growth can make bacteria resistant to those antibiotics. And that can leave physicians with no way to treat life-threatening bacterial infections in humans. That's why I support the petition filed by CSPI.
